

## KINDERGARTEN PERFORMANCE: MUSIC AND THEATER

- **Project description:**

The main idea of this project is bringing classical music to the children between two months and six years old in two different ways, depends on the age. As development and learning skills of the children vary a lot in these early stage we have design two different kind of activities depending on the age of the group we have. Based on how fast and easy children learn imitating what adults do, we have designed an active-concert where kids can learn having fun and enjoying with the music; being them part of the show. We are counting on an actress who will tell an adapted story in Danish and the games, that the children have to do meanwhile our chamber group will play the music. The musical production we are going to perform is "The Nutcracker". The Chamber Music group is formed by a flute, clarinet, cello and piano. The performance will be organized in seven scenes with music, theater and games.

-Drama games: different voices, different occasions, memorization game...

-Music games: rhythm, games with musical concepts like: loud/quiet, fast/slow, high/low, feel the beat...
